

**CLAIMS**

1. (Currently Amended) A tray for supporting a planter, comprising:
  - a) a bottom having an upper surface and a lower surface;
  - b) one or more side walls extending upwardly from the bottom of the tray to form a container; and
  - c) a drain having an opening formed in said tray, at least a portion of the drain opening positioned at or below the level of the upper surface of the bottom of the tray, wherein said upper surface slopes downward toward said drain.
2. (Cancelled)
3. (Original) The tray of Claim 1 wherein said bottom has at least one raised surface for supporting a planter above said upper surface.
4. (Original) The tray of Claim 1 wherein the tray is formed of a substantially waterproof material.
5. (Original) The tray of Claim 1 wherein the waterproof material selected from the group comprising polypropylene, polyurethane, polycarbonate, or UBS plastic.
6. (Currently Amended) The tray of Claim 1 wherein the tray is provided with a fitting at said exit opening for connecting a drainage tube.
7. (Original) The tray of Claim 6 wherein said drainage tube has a generally planar lower surface and a generally curved upper surface, said upper surface having a low profile, and said drainage tube having a hollow passageway for conducting water away from said tray.
- 8-28. (Cancelled)
